All interested and capable persons or entities are invited to submit bids on the bid form included with this package. A non-mandatory pre-bid conference will occur at 9:00 am on Tuesday, November 20th, 2018 at the Cascade County Public Works Department, 279 Vaughn South Frontage Road, Great Falls, MT 59404.

3. Bid Security. Pursuant to Section 18-1-201, Montana Code Annotated, the Board of Commissioners must require a bid security. Each bid must be accompanied by security in a form specified below, and in an amount equal to ten percent (10%) of the bid of the bidder, and payable to Cascade County.

According to the above cited statute, bid security is required "as a condition precedent to considering any such bids, as evidence of good faith on the part of the bidder, and as indemnity for the benefit of such public authority against the failure or refusal of any bidder to enter into any written contract that may be awarded upon and following acceptance of (a) bid..." Thus, if a bidder is selected and requested to enter into the contract, and the bidder refuses to enter into the contract, the bid security shall be forfeited in its entirety to Cascade County.

The form of the bid security is specified in Section 18-1-202, Montana Code Annotated, as follows;

"(1) In all cases under 18-1-202 (1), the bidder, offeror, or tenderer shall accompany and bid with either:

(a) lawful money of the United States;

(b) a cashier's check, certified check, bank money order, or bank draft, in any case drawn and issued by a federally chartered or state-chartered bank insured by the federal deposit insurance corporation; or

The successful bidder's bid security shall be returned upon the parties entering into a contract. Also, at such time, the bid security of unsuccessful bidders shall be returned.

5. Waiver of irregularities and informalities. Cascade County reserves the right to waive any irregularity or informality in any bid. Further, Cascade County reserves the right to reject any and all bids for any reason.
6. Basis of Award. Cascade County shall base any award on the most responsible bid submitted for each of the various make and model of fleet vehicles. Cascade County reserves the right to purchase the various make and model from different bidders based on lowest most responsible bidder that the county deems appropriate. Consideration will be given, but is not limited to, cash flow, purchase price, trade in value, delivery date, equipment service guarantees, parts and service availability, parts and service facilities locations, analysis and comparison of equipment specification details, fuel consumption, fuel additive requirements, annual and lifetime operating costs, annual and lifetime ownership costs, resale value, and past experience of Cascade County with similar or related equipment.
7. Resident Bidder Preference. Pursuant to Section 18-1-102, Montana Code Annotated, Cascade County will award the contract “to the lowest responsible bidder without regard to residency. According to the above cited statute, bid security is required "as a condition precedent to considering any such bids, as evidence of good faith on the part of the bidder, and as indemnity for the benefit of such public authority against the failure or refusal of any bidder to enter into any written contract that may be awarded upon and following acceptance of (a) bid..." Thus, if a bidder is selected and requested to enter into the contract, and the bidder refuses to enter into the contract, the bid security shall be forfeited in its entirety to Cascade County.

The form of the bid security is specified in Section 18-1-202, Montana Code Annotated, as follows;

EXPLANATION PAGE FOR NON-MINIMUM SPECIFICATIONS

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand the target audience's preferences and pain points. Once a need is identified, the next step is to develop a concept that addresses this need. This stage often involves brainstorming and prototyping to refine the idea. The third step is to create a business plan, which outlines the financial aspects of the product, including costs, pricing, and revenue projections. This plan is crucial for securing funding and guiding the development process. The fourth step is to develop a minimum viable product (MVP) to test the market. This involves creating a basic version of the product that allows for user feedback and iteration. Finally, the product is launched into the market, and ongoing monitoring and feedback are essential for its success and future improvements.
